A garden spot that represents ease, leisure, space and outdoor beauty.

"HOME LANDSCAPES" 1948

We take pleasure in presenting this new catalog, illustrating and telling you about many choice and hardy trees, shrubs and plants, the growth and beauty of which you can enjoy right in your own home yard. The varieties are those that are adapted to the soils and climate of these North-Central States.

A guide to more attractive home grounds and gardens, dedicated to men and women who appreciate the refined pleasures and beauty attached to home landscapes, and who desire to develop the maximum amount of beauty, comfort and use at a minimum of expense and care.

52 Years In Business Reflects Service, Quality and Dependability

REAL BEAUTY IS THE RESULT OF CAREFUL PLANNING

Planning the Home Grounds

The interest in improving Home Landscapes was never so wide spread as it is at the present time. The modern trend is to have the outside as beautiful as within.

Before starting to develop the home grounds you must have first a definite idea of what you want to accomplish. Real beauty and utility are the results of careful planning.

You Can Develop Your Yard So That it Invites Use

An open central area of well-kept lawn beckons the foot-steps. A shapely tree or two for protection with suitable garden seat or chairs in their cool shadows will create a lure to the garden that is irresistible.

Children play safely in such a foliage-protected yard and the entire household turns gratefully to such surroundings for healthful pleasure and recreation.

Bring the Living Room Out Doors

The style for beauty, seclusion and use outside the home is upon us—and this new style finds its most charming expression in the Modern Outdoor Living Room.

Right in your own home yard, no matter what its size, there is an opportunity to create a shelter-spot. There, in sheltered seclusion, you can find rest and ease in the quiet beauty of the out-of-doors.

A delightful "out-of-doors living room" can be made without elaborate settings. All that is needed is a tasteful and proper arrangement of plantings and simple accessories that provide comfort and relaxation.

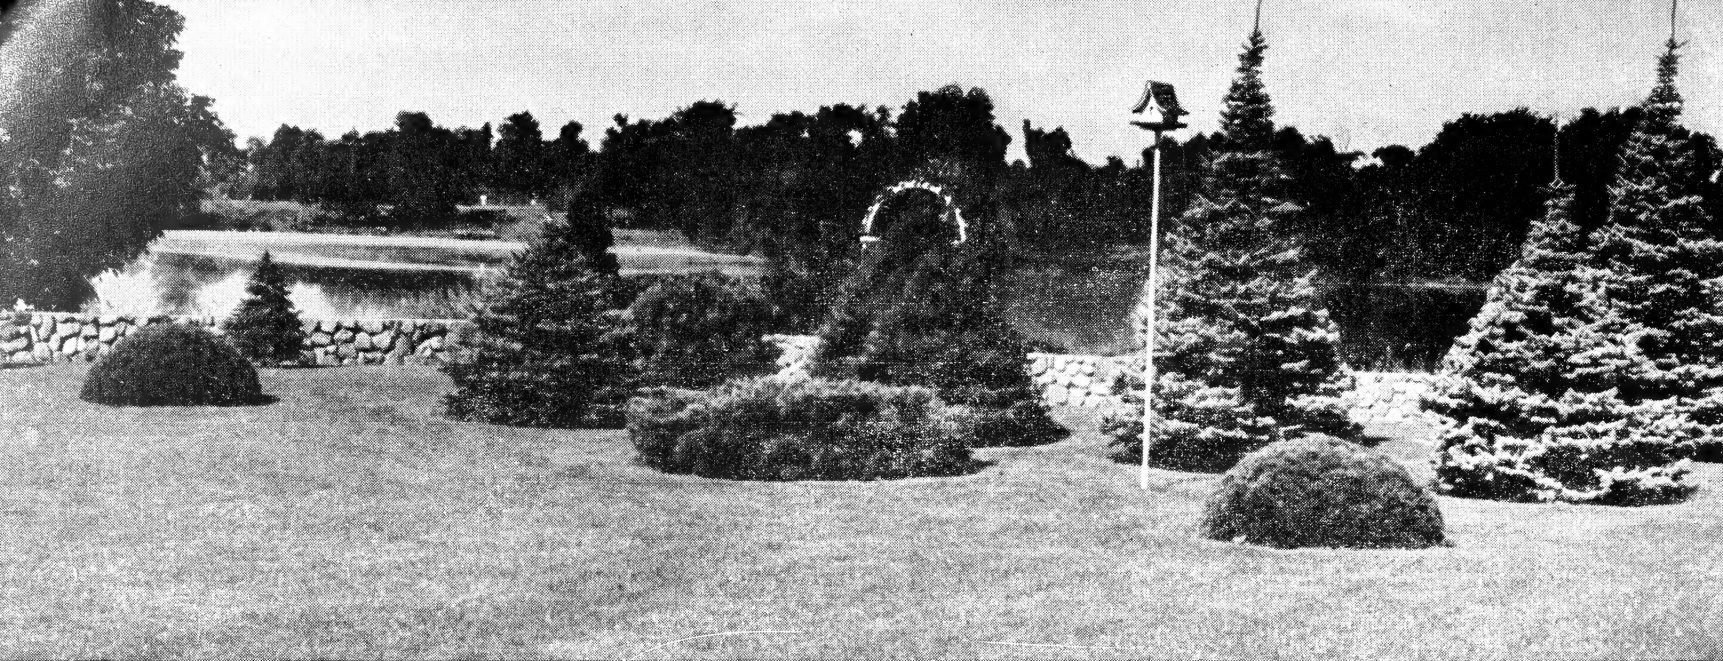

Actual H & O Reproductions

Grouped about these pages are views of home grounds and gardens, planned and constructed "by HOLM & OLSON", demonstrating how the principles of gardening can be applied to the development of your home grounds. They illustrate the modern treatment of planting directly about the house, the Out Door living room, Flower Borders, correct Tree planting, Evergreen settings and Lawn building.

A study of these photographs will help and give you a working knowledge of modern landscape planting and act as a guide to improving your home grounds.

Choose your plants carefully—in this book we have striven for accuracy of description and adaptation. Please note—all material listed in this catalog is hardy and northern grown.

Evergreens For Permanent Planting

EVERGREENS are our most important group of trees, they grow naturally in our northern soil and climate. Evergreens are particularly appropriate and well suited for use in the landscape plantings throughout this section. For groups on the lawn, as a background to the garden or in plantings by the doorway and around the house foundation the Evergreens will delight you in all seasons with their cheerful green color. We will be pleased to help you select suitable varieties for your grounds.

At the Park Nurseries the Evergreens are given particular attention to develop their full beauty and symmetrical growth. They are dug with solid root balls so that they can be moved without loss of vitality. Full planting directions are always given to assure you the best results. **COME TO THE NURSERY AND SEE OUR EVERGREENS.**

To help you realize how much growing-time you can save when you plant Evergreens of substantial size **WE GIVE THE AGE, AS WELL AS THE SIZE, OF THE OLDER TREES** along with their prices.

Plant Northern Grown Evergreens

The Arborvitae—Thuya

American Arborvitae (*Thuya occidentalis*). 20 ft. A native evergreen with soft, lacy, fan-shaped foliage. The tree is bushy at the bottom and tapers toward the top. Stands trimming well.

5 to 6 ft., 20 yr.-----\$20.00

The Yews—Taxus

Interest in Yew trees is fast increasing. No family of Evergreens has such popularity in recent years as the Yews. This interest is easily accounted for. The answer is the outstanding merit of the trees in richness of color, variation of form, thriftiness of growth and adaptability to various soils and planting locations.

Yew, Japanese (*Taxus capitata*). 5 ft. A very ornamental, medium-size Evergreen with clean, waxy, dark-green leaves. Grows close, upright and compact. The fruit is a red berry.

2 to 2½ ft., 11 yr.-----\$15.00 2½ to 3 ft., 14 yr.-----\$20.00

Yew, Dwarf Japanese (*Taxus cuspidata nana*). 2½ ft. A dwarf and very compact Yew with rich, dark-green foliage.

Shade and Ornamental Trees

Plant a Living Memorial—Tree

The beauty of appropriate shrub plantings add to the charm of this attractive home and grounds.
Developed by Holm & Olson.

Bring Comfort and Beauty To The Home Grounds

THE attractiveness and comfort needed to complete a landscape setting is the proper placing of desirable trees. Thought given to selecting the best varieties for a particular use is important. In the border they may be used as accents, on the lawn to provide welcome shade, to cast interesting shadows, to supply flowers, fruit and foliage effects. A tree or group of trees add a feeling of quiet thoughtful repose to home atmosphere. We will gladly help you select suitable varieties for your grounds.

Since trees reach their maturity slowly you can save years of waiting by using larger sizes. That you may better judge the time saved by planting older stock we give both the sizes and the approximate age with the prices in our catalog listing. COME TO THE NURSERY AND SEE OUR TREES.

The Ash

American White Ash (*Fraxinus americana*). 60 ft. A native tree of straight, trim growth. Splendid for lawn or boulevard. A clean tree not troubled generally by insects and dependably hardy through the north.

FOR SHADE, SHELTER
AND LASTING BEAUTY
ABOUT YOUR HOME

*A Tree adds to the
beauty of Nature
and Comforts
of Man.*

Trees are the foundation of permanent beauty. Planned and planted by Holm & Olson.

Your grounds are not complete without the use of trees. They give elevation against the sky and produce shadows on the lawn; frame beautiful vistas and shut out undesirable views.

The Elms

American Elm (*Ulmus americana*). 60 ft. A gracefully-arching and wide-spreading tree that is unquestionably the most popular tree in America for shade, street and lawn planting. It is tough grained and fast growing which places it at the head of the "permanent" class of ornamental trees. Very hardy.

Plan To Plant

A LIVING MEMORIAL

THE first and most important consideration in planting a living memorial tree is to be sure that it is located with foresight, and that every detail is considered before planting takes place.

Ornamental Trees

Shade and Avenue Trees (Deciduous) are those that drop their leaves in winter. They are fairly rapid growing and are easily planted in the Spring. Deciduous trees are well suited for planting as lawn and street trees, they give shade in the summer and admit light in the winter.

Linden—Basswood

American Linden (Basswood) (*Tilia americana*). 70 ft. A stately tree with broad, heart-shaped leaves; fragrant white flowers. Quite hardy, native; fine for lawn or street planting.

6 to 8 ft.	\$1.50	8 to 10 ft.	\$2.60
1 1/2 in. diam., 7 yr.	4.25	2 in. diam., 9 yr.	5.25

The Mountain Ash

Mountain Ash (*Sorbus aucuparia*). 30 ft. White flowers in May followed by bright orange-red berries, which hang on for months. Very ornamental. Used as a specimen on the lawn or as an accent in the border.

8 to 10 ft.	\$4.00	1 to 1 1/2 in. diam.	\$5.00
------------------	--------	---------------------------	--------

PLUM, Purple Leaf. Please see under shrubs—page 12.

The Poplars

Bolleana Poplar (*Populus bolleana*). 40 ft. Upright columnar growth with smooth, gray-green bark. Glossy, green leaves with downy white undersides. Makes a strong vertical accent.

6 to 8 ft.	\$2.00	8 to 10 ft.	\$2.50
10 to 12 ft.	3.00	2 in. diam., 6 yr.	5.00

Lombardy Poplar (*Populus fastigiata*). 40 ft. A tall picturesque, spike-like tree. Erect and pyramidal in form. Planted for landscape effect, as an accent or for screening purposes. Grows quickly. Seldom spreads over 8 ft. wide and can be used to advantage in places of restricted size between buildings, in small lawns and along narrow avenues.

6 to 8 ft.	\$1.50	8 to 10 ft.	\$1.75
		10 to 12 ft.	\$2.50

The Willows

Golden Willow (*Salix vitellina aurea*). 35 ft. A symmetrical, round-topped tree. Rapidly growing with branches of rich golden yellow. Very hardy.

6 to 8 ft.	\$2.00	8 to 10 ft.	\$3.00
-----------------	--------	------------------	--------

Laurel-Leaf Willow. 20 ft. Shiny dark green foliage resembling the laurel. The best willow for shade and screen.

6 to 8 ft.	\$1.75
8 to 10 ft.	2.50

Niobe Weeping Willow. 30 ft. Golden bark and graceful weeping branches that sweep the ground. A much-admired lawn tree.

6 to 8 ft.	\$3.00
8 to 10 ft.	4.00

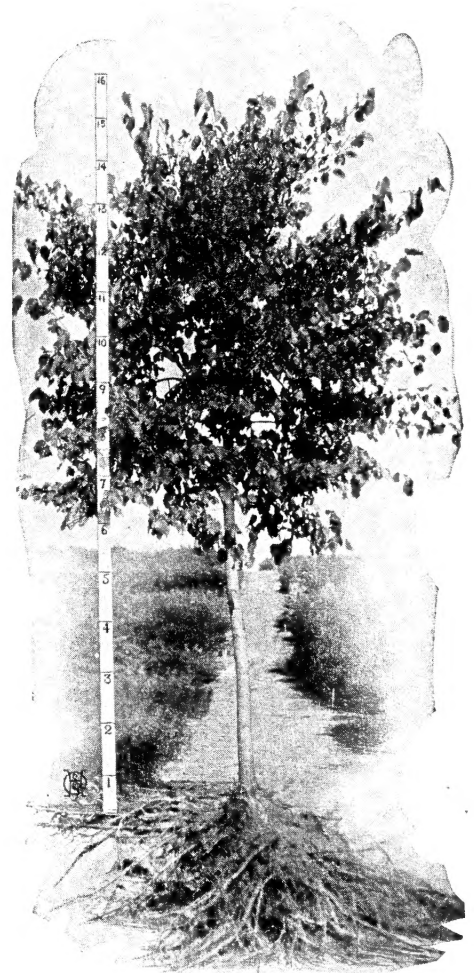

Wisconsin Weeping Willow. 30 ft. The hardiest of the weeping willows. Very desirable for a quick growing, ornamental lawn specimen. Dark colored bark.

6 to 8 ft.	\$3.00
8 to 10 ft.	4.00

The Black Walnut

Black Walnut (*Juglans nigra*). The familiar nut-bearing tree. Grows slowly to majestic size.

6 to 8 ft.	\$3.00
-----------------	--------

A young tree from our Nursery. Note the well-developed top and the full fibrous root growth.

Flowering Shrubs

**FOR EARLY
FRAGRANT BLOOMS**

Much of the beauty and charm in landscape planting comes from the free use of flowering shrubs. Their delicate coloring, fragrance and profusion of bloom entitles them to an important place in your home yard.

After the flowering season their colorful foliage, brilliant berries, together with their colored twigs and branches in winter add year round beauty and interest.

It is the softening grace of the dwarf and medium height shrubs when planted about the foundations that creates the transformation from bareness to beauty. The taller shrubs find their proper place as specimens in the lawn or in the border along the lot boundaries to give privacy or to screen out unattractive views.

A large area of our nursery and the skill of experienced gardeners is devoted to developing our shrubs into sturdy, handsome plants that will quickly bring attractiveness to your home grounds. Allow us to help select suitable varieties for your grounds. Come to the Nursery and see our flowering shrubs.

PLEASE NOTE: The figures following the shrub name show the approximate height of growth.

Lilacs

FOR FRAGRANT BEAUTY

Much charm of home grounds comes from the free use of flowering lilacs

The Lilac like the Rose is more closely wrapped up in the esteem and affection of the American Gardener. It offers so much fragrance, color, profusion of bloom and thick rich green foliage.

Throughout our northern states the Lilac thrives splendidly and quickly grows into a magnificent shrub. Dependable and absolutely hardy.

ENJOY THE NEW FRENCH LILACS

French Hybrid Lilacs are modern improvements of the old-fashioned lilac. The flowers are gorgeous in coloring and much larger in size. The French Lilacs bloom when young and bear year after year a profusion of delightful blossoms.

Hardy Garden Phlox

**FOR COLOR IN
YOUR GARDEN**

For a brilliant, bold color effect during the late summer and autumn, plant more hardy phlox.

For Color and Profusion of Bloom in Midsummer Plant More Hardy Perennial Phlox

The Phlox is without doubt the most colorful and most popular of all the perennials. The showy flowers are the brightest spot in the garden during middle to late summer.

The recent Phlox introductions are marked improvements over the older types. We offer a very careful selection of the better and newer varieties.

PLANTING—Plant phlox in well drained enriched soil. Never let plants go to seed, never water overhead. Keep plants well watered by letting hose run slowly on the ground. This prevents mildew. Space phlox roots 12 to 15 inches apart and cover the roots with 1½ inches of soil.

The Red Phlox

Augusta (New Plant Patent). The finest, vividly colored American Beauty red phlox. 60 cts. each.

B. Comte. A deep shade of red-plum. Tall growing.

Beacon. A pleasing cherry-red. Tall growing. Large flowers.

Charles Curtis (New). Sparkling sunset red. Does not fade or discolor. 60 cts. each.

Fireglow. A new, brilliant color. Flaming scarlet that is often vermillion. Large flowers freely produced.

Leo Schlageter (New). One of the most pleasing full rich scarlets with orange cast. Tall. 3 ft.

R. P. Struthers. A choice soft red. Tall and free blooming.

Lavender and Blue Phlox

Caroline Vandenberg (New). Very large flowers of light-blue tones.

Miss Ethel Pritchard. A new French-mauve colored phlox. General color effect is light blue. Good sized flowers in large clusters.

The White Phlox

Bridesmaid. White flowers with a crimson-carmine eye.

F. G. VonLassburg. Medium height, free flowering white.

Mary Louise (New). Pure white, exceptionally large. Good grower, free bloomer, medium height. 60 cts. each.

Mrs. Jenkins. Large flowering, pure white.

PRICES OF PHLOX (Unless otherwise noted)

Strong plants—50 cts. each.

(For shipment by parcel post add 10% for postage.)

The Pink Phlox

Cheerfulness (New). 3 ft. Sparkling salmon orange. 60 cts. each.

Daily Sketch (New). English novelty. Grows to 3 ft. Big flower heads with extra large florets. A bright salmon pink with vivid crimson eye. 60 cts. each.

Enchantress. A strong-growing plant with clear salmon-pink flowers that have a darker eye.

Geo. Stipp. Deep glowing salmon with lighter eye.

Lilian. Soft cameo pink. Strong grower.

Pantheon. Deep salmon-pink petals with lighter centers.

Rheinlander. A very beautiful salmon-pink with deeper center. Flower heads are large and held on strong stems.

Rijnstroom. A lovely rose-pink, much like Paul Neyron rose. Very large flower heads. Strong grower.

The Dwarf Early Phlox

For Borders and for Rock Gardens

PHLOX SUBULATA. A mass of bloom in early spring covers the delicate moss-like foliage. Excellent for rockery and border, and invaluable for carpeting the ground or covering graves.

Lilacina —Pink—White 40 cts. each; 3 for \$1.00

"VIVID" (New). An improved early, dwarf pink with unusually Brilliant clear pink flowers 50 cts. each.

PHLOX DIVARICATA (Wild Sweet William). Large fragrant lavender flowers on 9 inch stems in April and May. Likes shade. Ideal for ground cover between Tulips, edging for spring flowering borders 40 cts. each; 3 for \$1.00

SPECIAL—HOME YARD PHLOX COLLECTION

Trees, Evergreens and Shrubs

TO FIT THE PLACE

Recommendations for the selection of Trees and Shrubs for landscape plantings.

Lawn Trees

Careful thought given to selecting the best varieties for a particular use and location is important. They may be used as accent, for shade, shadows, and to supply flower, fruit and foliage.

Birch in variety	American Linden
Flowering Crabs	Mountain Ash
Horse Chestnut	Hackberry
American Elm	Red Maple
Maples in variety	Crataegus

Early Flowering Trees

Flowering trees are a part of the glory of Spring. There is no waiting for a show of flowers and color. Recommended—Specimens. Flowering Crabs are outstanding.

Dolgo Crab	Mountain Ash
Flame Crab	Hawthorn-Crataegus
Hopa Crab	Purple Leaf Plum
Red Silver	Dbl. Flowering Plum
Betchel's Dbl. Flowering Crab	Horse Chestnut

Evergreens for the Open Lawn

The selection of Evergreens is an investment in dignity and permanence. Choose them carefully with an eye to the future. Give them plenty of room. Plant in well drained soil.

American Arborvitae	Austrian Pine
Dundee Juniper	Mountain Pine
Red Cedar	Black Hill Spruce
Douglas Fir	Colorado Spruce.

Evergreens for Around the House and Buildings

Plantings at the doorway and around the house foundation will delight you in all seasons with their green color. Do not crowd. Plant in fertile well drained soil.

Pyramidal Arborvitae	Savin Juniper
Siberian Arborvitae	Andorra Juniper
Chandler Silver Cedar	Mugho Pine
Pfitzer Juniper	Yew (Dwarf)

Colorful Shrubs for Accent in the Border.

Use these shrubs in sunny exposure. They will spotlight the border and house plantings with exciting beauty. Plant in groups of three and five.

Red-leaved Barberry	Golden Mockorange
Euonymus alatus nana	Russian Olive
Variegated Dogwood	Golden Ninebark
Dbl. Flowering Plum	Tamarix
Purple Leaf Plum	Rubrifolia rose

Fruiting Shrubs and Small Trees that Attract Birds

There are a number of plants which produce edible seeds and fruit attractive to birds. The ones enumerated below are the most important and ornamental.

Barberry	Euonymus
Buckthorn	Yellow Currant
Cotoneaster	Honeysuckle
Dogwood	Snowberry
Elderberry	Russian Olive
Highbush Cranberry	Mountain Ash
Arrowwood	Crataegus

Shrubs with Exceptional Flowering Qualities

This group contains many of the old favorites as well as many of the new varieties. Your border will be aglow with summer color when these varieties are planted in groups.

Dbl. Flowering Almond	Hybrid Rugosa Roses
Yellow Flowering Currant	Bridal Wreath
Forsythia ovata	Spiraea Anthony Waterer
Honeysuckle in variety	Spiraea Snow Garland
Hydrangea, Large Flowering	Tamarix
Virginal Mockorange	Weigelia
Snowflake Mockorange	Dbl. Flowering Plum
Hybrid French Lilacs	Persion Lilac

Low Shrubs, for House and Border Plantings

Flowering and foliage shrub plantings near the house should consist of low and medium compact slow growing plants. They provide a transition from house to ground and from background shrubs to lawn area. Recommended varieties:

Green Barberry	Rugosa Roses
Red Barberry	Dwarf Ninebark
Alpine Currant	Spiraea Thunbergi
Hydrangea	Spiraea Anthony Waterer
Golden Mockorange	Snowberry

The Improved Water Lance

For watering the roots of trees and shrubs. Saves time — saves water — gets results.

This handy device is very simple to use. It connects right to your garden hose.

In 2 minutes use it supplies more water right to the plant roots where it is needed than by 2 hours of the old surface watering. We recommend it.

BLOOM THIS YEAR -----\$5.00

SIMPLE RULES FOR CARE OF ROSES

PRUNING. Before growth takes place in early Spring, remove weak growth and branches that crowd or grow into center of plant. Remove dry and black wood. Remove any growth starting below the bud on main stock.

WATERING. When rainfall is not sufficient to keep soil moist, roses should be given a good soaking once a week.

FERTILIZING. Mulch with cow manure in the dormant season. Use a complete commercial fertilizer once a month in the growing season.

Spray with Nicotine or Black Leaf 40 every week or ten days to control sucking insects.

A combination of nine parts of dusting sulphur and one part of Arsenate of Lead, used regularly will keep roses free from insects and diseases.

DUSTING with Sulphur Dust regularly each week controls Mildew.

Flowering Perennials

EARLY SPRING UNTIL LATE FALL

FLOWERING perennials are the backbone of the flower garden, most of them repeating faithfully each year with a minimum of attention. These plants live in the open ground. Many are useful as cut flowers, others for border displays or the Rock Garden. The best effect is usually produced by setting the plants out in separate groups of three or five of one variety.

You will find listed here not only the older favorites but many new, choice varieties and novelties. Dependable and hardy all through the North.

Park Nurseries Perennials are sturdy 2 year old, field-grown plants that are dug freshly to your order. We make no attempt to compete with the ordinary offerings of Perennial plants. We grow and distribute the better strains of quality plants. Come to the Nursery and see our plants.

Fruit

For Food and Beauty

The Hardy Apples

Price—Strong Trees, 5 to 6 feet, \$2.00 each. Specimens 7 to 8 ft., \$4.00.

No other fruit tree contributes more to your garden and orchard than the apple. As the trees grow older, their good features become more pronounced and your trees more valuable.

ANOKA. Large yellow, red-striped fruit of fine flavor in August. Bears early on young trees—often fruiting second year after planting.

BEACON. (New Minn. Variety.) An early-ripening, highly-colored, deep red apple of good size. Valued for both eating and cooking.

DUCHESS. Yellow with red stripes. Ripens early. A large size popular September fruit. Bears heavily. Free from blight.

FIRESIDE. An attractive, red, long keeping apple with a high flavored, rich deliciousness that makes it just the fruit for a winter evening by the fire.

HARALSON. Deep red winter apple. Fine quality. A new hardy and dependable Minnesota apple.

MINJON. A Minnesota form of Jonathan, good eating and cooking quality.

PRAIRIE SPY (New Minn. variety). Bright red over a yellow ground, medium size, late. Excellent keeper.

WEALTHY. A fine-quality red apple that fruits abundantly. A very popular Minnesota variety. Season, September to January.

Hardy Crab Apples

Price—Strong Trees, 5 to 6 feet, \$2.00 each.

DOLGO. Good flavored, highly ornamental bright red fruit. Makes excellent jelly. Ripe in September.

Sow "Velvet Sod"—the best grass seed. "Velvet Sod" makes a lawn of lasting beauty.

H & O "High Test" Lawn Grass Seed

Good lawns can only follow the use of clean, pure seed of high germination test. H. & O. High Test Seed is dependably good—selected, re-cleaned seed that is the best in quality that we can secure.

AMOUNT OF SEED TO SOW—Allow one pound of seed to every 200 square feet of new lawn area. For re-seeding on old lawns one pound of seed to 400 square feet will be sufficient.

HISTORY BEHIND A QUALITY GRASS SEED MIXTURE

Grass seeds are usually purchased under brand names, the basis of all good grass seed mixtures **must** be the same. The important feature of a good mixture is that it must contain heavy well developed seeds from selected grass stocks that have been grown and cured for the distinct purpose of seed production.

Purity of the seed, free from weed seeds, germination and weight per bushel are the important factors to consider. Avoid mixtures that contain annual weed seed, Timothy and domestic Rye grass.

Kentucky Blue grass and Red Top are the basic seeds used in good grass seed mixtures.

Prices are given for seed packed and ready to ship. Add 6c per lb. for parcel post if shipment by mail is wanted.

"Velvet Sod" Seed

"Velvet Sod" Lawn Seed is an unusually high grade and careful mixture of permanent fine-bladed, rich green grasses. Specially prepared to meet the climatic conditions of our northern states. Its high weight of 25 lbs. per bushel indicates its purity and freshness from chaff and adulterations. We use this seed on all our own landscape work and recommend it as the best seed obtainable.

1 lb. \$0.85; 5 lbs. \$4.20; 10 lbs. \$8.00; 20 lbs. \$15.00

Shady-Side Seed

Where ordinary grasses will not grow we suggest sowing this special "shady-side" mixture which contains varieties naturally tolerant to shade. (Extra attention of fertilizing and watering is very important under these shade conditions and a light re-seeding each spring helps maintain the sod.

1 lb. \$0.85; 5 lbs. \$4.25; 10 lbs. \$8.00; 20 lbs. \$15.00

WEEDONE

Weedone, the original 2-4 D weedkiller. Kills dandelion, plantain, chickweed, and most other lawn weeds. Also kills poison ivy, poison oak, bind weed and other noxious weeds that plague the gardener. Formula: 6 oz. Weedone to 5 gallons of water. This solution will cover 1,000 sq. ft. applied under pressure. Weedone does not kill Crab Grass.

6 fluid ounce bottle (for 1,000 sq. ft.)	-----	\$0.75
1 quart bottle (for 5,000 sq. ft.)	-----	2.50
1 gallon can (for 20,000 sq. ft.)	-----	7.50

Send for "HOW TO MAKE A LAWN." This booklet tells you how to make and care for a lawn. It gives practical and helpful information. Mailed on request.

Creeping Bent Grass

Sea Side Bent—A true, unmixed creeping bent seed. It produces a thick, low and close-growing turf for lawns and golf greens. (Creeping Bent sod requires often and close cutting and special attention in fertilizing.)

1 lb. \$2.00; 5 lbs. \$9.75; 10 lbs. \$19.00

Red Top Grass

Red Top is a fine-leaved grass that germinates and develops very quickly. It is of particular value in getting a new sod established. For a permanent lawn it should not be sown alone.

1 lb. \$0.55; 5 lbs. \$2.50; 10 lbs. \$4.75; 20 lbs. \$9.00

White Clover Seed

The best imported white Dutch clover with small leaves and dense growth. Very often sown with other grasses, particularly in a new lawn, where it helps cover the ground, thicken the sod and so tends to crowd out weeds.

½ lb. \$0.70; 1 lb. \$1.30; 5 lbs. \$6.00

Kentucky Blue Grass

A beautiful grass that should be the main constituent of every good lawn here in the north. It is sometimes used alone but as it develops slowly, it becomes better established if sown in a mixture. Our seed is a very choice grade of carefully re-cleaned extra heavy seed with an average weight of 21 lbs. per bushel.

1 lb. 40c; 5 lbs. \$1.75; 10 lbs. \$3.25; 20 lbs. \$6.00
1 lb. \$0.85; 5 lbs. \$4.20; 10 lbs. \$8.00; 20 lbs. \$15.00

The Lawne-Mulcher . . .

Greatest improvement in lawn care . . . since the lawn mower.

A scientifically designed device which, attached to a standard hand mower, returns cuttings to the soil as a mulch. Cut grass disappears, being recut into fine clippings and evenly distributed over roots.

No catcher needed . . . no grass thrown back into trouser cuffs. No raking . . . grass and leaves too, mulched to form a vital organic plant food. This mulch shades the soil, protects roots from burning and retains moisture. Lawn growth is encouraged and weeds and crab grass are discouraged. Quantity and quality of grass is improved in a surprisingly short time.

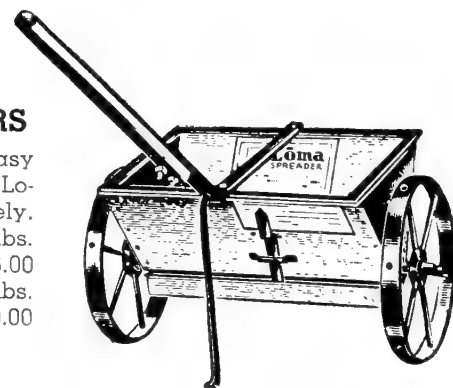

You will be amazed to find how much fun it can be to cut the lawn with no catcher to empty . . . no grass to rake . . . no cuttings to dump. Takes only half the time, mower is no harder to push and your lawn will be something to be proud of.

The Lawne-Mulcher is quickly attached. Made of light weight, rust-proof aluminum, it will last a lifetime.

State size and make of mower ----- \$7.95

LET HOLM & OLSON HELP YOU PLAN

Make full use of our experienced designers. Send us a sketch, measurements and if possible a photo of your house and grounds. For the average city lot send us the information as indicated on the adjoining plan. Show the size of grounds or that part of the grounds you are planning to improve and plant, location of drive, walks, house, garage, trees and present plantings. This information will enable us to furnish you with a detailed planting plan. This cross-section page is to be used for making survey. Scale—one square equaling a definite unit of measure.

How We Serve You!

WHEN TO ORDER. Try to make up your order and send it in soon after this catalog reaches you. Early orders enable us to reserve for you the plants wanted and to give you the first selections. **Your order will be shipped just when the weather is most favorable** and at just the right time for planting.

How to Order. Send in your orders by whatever means you prefer and we assure you of prompt, careful attention. For your convenience our order blank is placed in this catalog, ready for your use.

Give Shipping Instructions. Tell us how you want shipments made; whether by Freight, Parcel Post (suitable only for small packages) or Express, and indicate any special routing. We recommend Express as most advantageous and desirable excepting on heavy, bulky shipments. When not instructed we will use our best judgment.

No Packing Charge. Catalog prices are all based on stock F. O. B. St. Paul and no charge is made for packing. Twin-City deliveries are made to any St. Paul or Minneapolis address.

Terms. Cash with order is expected and money should be sent by check, post office order or bank draft. If credit is to be arranged please advise us in ample time and furnish the usual business references. All accounts are due by the 10th of the month following date of purchase.

PARK NURSERIES, HOLM & OLSON—Members of the American Association of Nurserymen, Minnesota State Nurserymen's Association and Twin City Nurserymen's Association.

All Trees, Evergreens, Shrubs, Perennials and Seeds are regularly inspected by the State Department of Agriculture, for which a certificate has been issued for 1948.

The Liberal Plant Guarantee

First. You are assured that you will receive the best quality of live, healthy plants, properly packed to reach you safely. If any plant ordered proves untrue to variety it will be re-supplied without charge.

Second. We agree to re-supply any plants that may fail to become established the first season after planting at one-half of the original catalogued purchase price. Requests for any such replacements must reach us before October 1st of that season and the account must be paid in full when due.

Full Planting Instructions are sent with the acknowledgment of every order. Consult us freely for any further information you may need. We want the opportunity to help you and no expense will be spared to make every order we send you give entire satisfaction.
